☒ State Agency

☐ Other

**DISCUSSION:**

Old Brazos Forge, Inc. is both a RCRA and CERCLA notifier.

A Preliminary Assessment (PA) was conducted by EPA FIT in 1983.

The file was subject of a NFRAP recommendation in 1988, and reopened in 1991 to conduct a Site Inspection Prioritization (SIP).

On 11/29/95, the State reported to the EPA Region 6 NPLC that the site is currently inactive and new information warrants further investigation of this facility. Since a SIP has not been assigned or tasked at this time; conducting a Screening Site Inspection (SSI) by the State, TNRCC, is recommended for this site. Copy of the EPA site files will be provided to the State to initiate this investigation.
